

Mid Semester Examination
ICICC03 Signal and Systems

Feb-March 2025

Time 1 Hour 30 minutes

Max Marks 20

CO

Note: Attempt all questions in given order only

Q 1. (a) What do you understand by signals?	02	01
(b) Differentiate the type of signals?	02	01
Q 2. (a) Discuss classification of system?	02	01
(b) Elaborate Linear and Time Invariant (LTI) system?	02	01
Q 3. (a) Discuss Laplace Transform	02	02
(b) Discuss how Laplace Transform is used for circuit analysis?	02	02
Q 4. (a) How the Inversion of Laplace Transform is achieved?	02	02
(b) Discuss Impulse response?	02	02
Q 5. (a) Discuss the role of Transfer function in Laplace Transform?	02	02
(b) How poles and zeros of a system can be determined?	02	02
